In introducing the **New Variety of Roasting Ear Corn,** we do not hesitate to say it is one of the very earliest now grown, and you can get corn for your table in about 65 days from planting. While this is not a true sweet corn, you can hardly tell the difference. It is far ahead of the Early Adams Varieties. The ears are from 8 to 10 inches long and have two to three ears to the stalk. The picture here shown is a true photograph of an ideal ear of this **Grand New Corn.** Indispensable on the farm for early feeding and ensilage purposes as well as table use. Under favorable weather yields 100 bushels to the acre.

We have a limited amount of this corn for sale this season, so send us your order at once.

Price 1 lb., 25c; 2 lbs., 45c postpaid; ½ bu. $1.50; 1 bu. by express, $2.50.

NOTE:—We have several varieties of sweet corn as well as field corn and you will find them listed herein. Special prices in large lots. Let us have your orders this season. We can please you in the quality of our seeds. Your money refunded if not satisfied.

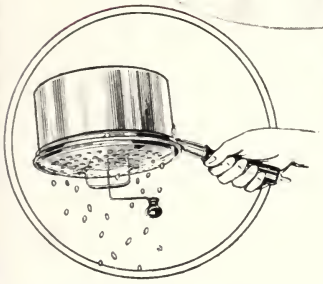
Pop Pop! crisp delicious popcorn



Turn popper upside down and shake to remove unpopped kernels

See recipes for colored popcorn for Hallowe'en, Valentine and St. Patrick's Day Parties.

Directions for the successful operation of the Arrow Pop Corn Popper:

1. Place over a moderately hot fire.
2. Add a little lard, butter or cooking oil to the popper.
3. When popper is hot add the corn and sprinkle with salt.
4. If other recipes are desired do not add salt.
5. Stir agitator around gently.
6. If the corn burns before it all pops the fire is too hot. If the corn does not pop out fluffy it has become too dry. Then sprinkle with a little water and place the package in cool place for a few days.
7. Never store pop corn near a radiator or stove. Always keep sealed in fruit jar and store in a cool place.

It's fun to make pop corn in this new Arrow Pop Corn Popper. It's so convenient to operate and your hands will always remain cool. After a little experience you will be able to turn out big, white fluffy, crisp, and delicious kernels.

Pop Corn is high in food value. There are a great many delicious ways in which it can be served. Some choice recipes are outlined on the back of this folder.
